Personalized learning pinpoints the precise areas where each student needs practice, giving all students the support they need – when and where they need it – to be successful. Learning Catalytics: Now included in all MyLab Statistics courses, this student response tool uses students' smartphones, tablets, or laptops to engage them in more interactive tasks and thinking during lecture. Paired Samples and Blocks Review of Part VI: Learning About the World VII. Supports learning through worked examples and practice opportunities UPDATED! Step By Step Examples – In every chapter, these examples emphasize the importance of thinking about a question, calculating results, and reporting findings (Think, Show, and Tell). More About Tests and Intervals 21. From Randomness to Probability Review of Part IV: Randomness and Probability V. That's why instructors have chosen MyLab for over 15 years, touching the lives of over 50 million students. Step By Step Examples – In every chapter, these examples emphasize the importance of thinking about a question, calculating results, and reporting findings (Think, Show, and Tell). Improve student results: When you teach with MyLab, student performance often improves. Instructors, you may still place orders with your bookstore. – Chapter-ending study guides help students review key concepts and terms. Savvas Learning Company is a trademark of Savvas Learning Company LLC. Through updated, relevant examples and data – and the authors' signature Think, Show, and Tell problem-solving method – students learn how to approach a question, solve the problem, and communicate meaning. Also available with MyLab Statistics MyLab™ Statistics is the teaching and learning platform that empowers you to reach every student. In the 5th Edition, new co-author Floyd Bullard introduces a greater emphasis on simulations as a powerful pedagogical tool. TI-Nspire Activities in the margins identify demonstrations and investigations for TI-Nspire handhelds to enhance each chapter. NEW! StatCrunch Question Library: This library of questions provides opportunities for students to analyze and interpret data sets in StatCrunch. Through early exploration of key statistical ideas, these simulations make it easier for instructors to teach and for students to understand more complicated concepts later in the course. By combining trusted author content with digital tools and a flexible platform, MyLab Statistics personalizes the learning experience and improves results for each student. RANDOMNESS AND PROBABILITY 13. Comparing Two Proportions Review of Part V: From the Data at Hand to the World at Large VI. Getting Ready for Statistics Question Library: This question library contains more than 450 exercises that cover the relevant review topics for a given section. UPDATED! Hundreds of exercises were added and updated with the most recent data. For courses in Introductory Statistics (algebra-based). Displaying and Describing Categorical Data 3. Understanding Randomness 12. Whenever possible, that data is provided at www.pearsonhighered.com/bock. Extensive and integrated use of simulations — Almost every chapter uses simulations to introduce a new topic, illustrate a concept, or assist in analyzing data when traditional methods are insufficient. So whether you'd like to build your own assignments, teach multiple sections, or set prerequisites, MyLab gives you the flexibility to easily create your course to fit your needs. Inferences About Means 24. Access pre-built exercises created specifically for statistics. Enhanced video program – Updated Step-by-Step Example videos guide students through the process of analyzing a problem using the "Think, Show, and Tell" strategy from the textbook. Clear, accessible, and teachable, Stats: Modeling the World leads with practical data analysis and graphics to engage students and get them to think in a statistical context. EXPLORING AND UNDERSTANDING DATA 2. Enhanced! video program: Updated Step-by-Step Example videos guide students through the process of analyzing a problem using the "Think, Show, and Tell" strategy from the textbook. INFERENCE WHEN VARIABLES ARE RELATED 26. Pedagogical tools encourage statistical thinking and application NEW! Extensive and integrated use of simulations – Almost every chapter uses simulations to introduce a new topic, illustrate a concept, or assist in analyzing data when traditional methods are insufficient. Many of those sources are listed so students can explore them further. Sampling Distribution Models 18. LEARNING ABOUT THE WORLD 22. Learning Catalytics™ fosters student engagement and peer-to-peer learning with real-time analytics. K12 Educators: Contact your Savvas Learning Company Account General Manager for purchase options. Most of the examples and exercises are based on recent news stories, research articles, and other real-world sources. These can be made available to students for extra practice or assigned as a prerequisite to other assignments. That's why we partner with highly respected authors to develop interactive content and course-specific resources that you can trust – and that keep your students engaged. Experiments and Observational Studies Review of Part III: Gathering Data IV. Accompanying applets give students the opportunity to explore important ideas, providing greater conceptual depth that will prepare them to apply their statistical knowledge in this course and beyond. Bock, Velleman, De Veaux & Bullard ©2019 | Pearson Format Access Code Card ISBN-13: 9780135901014 Suggested retail price $99.99 Availability This item is currently unavailable for purchase on our websites. Conceptual Question Library: A library of 1000 Conceptual Questions available in the assignment manager requires students to apply their statistical understanding. Confidence Intervals for Proportions 19. EXPLORING RELATIONSHIPS BETWEEN VARIABLES 6. Scatterplots, Association, and Correlation 9. Simulations help to address questions such as, "What does standard deviation mean?"; "What does '95% confident' mean?"; and "How large should a sample be?" UPDATED! TI Tips – Each chapter's easy-to-read "TI Tips" now show students how to use TI-84 Plus CE Statistics functions with the StatWizard operating system. Teach your course your way: Your course is unique. Many of those sources are listed so students can explore them further Hundreds of exercises were added and updated with the most recent data. With MyLab Statistics and StatCrunch®, an integrated web-based statistical software program, students learn the skills they need to interact with data in the real world. The Standard Deviation as a Ruler and the Normal Model Review of Part I: Exploring and Understanding Data II. Instructors can assign individual questions from the library by topic or they can assign questions from the same data set as a longer assignment that spans multiple learning objectives. Practice Exams – At the end of Part, a practice exam offers both multiple choice and free response questions. Inferences for Regression Review of Part VII: Inference When Variables Are Related Show Order Information for Pearson offers affordable and accessible purchase options to meet the needs of your students. Re-expressing Data: Get It Straight! Review of Part II: Exploring Relationships Between Variables 10. Testing Hypotheses About Proportions 20. The vibrant online community offers tens of thousands of shared data sets for students to analyze, in addition to all of the data sets in the text or online homework. Instant Access ISBNs are for individuals purchasing with credit cards or PayPal. StatCrunch is a powerful web-based statistical software that allows users to perform complex analyses, share data sets, and generate compelling reports of their data. Whenever possible, that data is provided at www.pearsonhighered.com/bock. What Have We Learned? Margin pointers direct students to explore these applets on the book's website (www.pearsonhighered.com/bock) and develop deeper understanding of key ideas. Simulations help to address questions such as, "What does standard deviation mean?"; "What does '95% confident' mean?"; and "How large should a sample be?" TI Tips – Each chapter's easy-to-read "TI Tips" now show students how to use TI-84 Plus CE Statistics functions with the StatWizard operating system. Connect with us to learn more. Displaying and Summarizing Quantitative Data 4. FROM THE DATA AT HAND TO THE WORLD AT LARGE 17. 1. Understanding and Comparing Distributions 5. Empower each learner: Each student learns at a different pace. StatCrunch is integrated directly into MyLab Statistics. Deliver trusted content: You deserve teaching materials that meet your own high standards for your course. Learn more about MyLab Statistics. Also available with MyLab Statistics StatCrunch Question Library – This library of questions provides opportunities for students to analyze and interpret data sets in StatCrunch.
