How to redeem spotify premium code

Spotify is not the only music streaming service out there, but it is certainly one of the most popular. Even so, countless less known Spotify tips can transform it from a mediocre radio replacement in their DJ's personal music discovery. Whether you use Spotify's free or premium services, there are all kinds of things you can do to get the most out of the experience. New features are often added to the service, but there is not much in the way of a tutorial when you start using the platform. To help, we put together a list of 15 Spotify tips and tricks that everyone should know. Do you still have a Spotify account? Subscribe to the button below for free! The Spotify Spotify Search game offers a huge music library, all available behind a simple search. Just touch the research and enter an artist, song, genre, album, mood, or just about nothing, and the service will show tons of relevant results. Read also: Does Spotify web player not work? Here are the corrections! However, if you want to restrict your search without sacrificing a massive list, there are some shortcuts you can enter directly into the search bar. For example, we say that you want to listen to music from the 1950s, but not really know famous artists from that moment. You can find this easily looking for the year:1950-1959. Below is a list of all advanced search strings in Spotify. Also, note that you can combine them with standard search terms (Herbie Hancock year:1960-1970). You caninclude several advanced strings in the same research with and (year: 1984 and gender: metal) or exclude results with not (year: 1993 not gender: grunge.) spotify advanced search strings year: — music from the year or range of years. genre: — music from a specific genre. label: —music released by a specific label. isrc: — search for songs that match an international standard registration code number. upc: — search for albums that correspond to a universal product code number. e — displays the results corresponding to two or more terms. it also works with +. not — excludes the results corresponding to the term after not. It also works with –, or — displays the results corresponding to one of the different terms. Explore with spotify radio stations are a great way to explore what is out there if you are new to spotify or love to find new music. All you have to do is find a single song, album or playlist you like, and the algorithm handles the rest. when new songs come, make sure to evaluate them with thumbs up or thumbs down icons. In this way, the algorithm will be able to better know your goto, improving your custom results in the future. Just keep in mind that you can just skip some songs a day unless you are a premium member. how to listen to the spotify radio finds a song or album you like. Touch the three points. Go to the radio. If you like every song in the playlist, tap follow to save the playlist for later. If you are a premium subscriber, you can also download it to yourcheck out the playlist discover weekly and release radar after using the service for a while, spotify learns what kind of music you like and generates custom playlists. These playlists are often junk on other services, but spotify really nailed its algorithm, and the results are always full of gems to discover. the first playlist is discover weekly, showing 30 tracks corresponding to your goto. it refreshes every Monday, so it's a great way to start your week off on the right note. the other playlist to control is radar release, which updates every Friday. contains new ocites of artists and genres you have heard in the past. is a great way to stay up to date without having to keep an eye on release times. If two custom playlists per week are not enough to satisfy your need for melodies, check out one of the six daily custom mixes. As before, be sure to vote songs to get even better results and throw your favorites into a custom playlist. Retrieve spotify deleted playlists if you spent months building the perfect playlist, losing can be painful. maybe a former aventive you shared your account with deleted or a family member did on accident, but in both cases, it is a serious loss. Fortunately, spotify makes it easy to recover deleted playlists. it only takes a few moments, but it must be done on the site of spotify. the recovered playlist will be immediately added to the end of your playlists. how to recover deleted spotifyBrowse the Spotify website. Click Log In. Select Recover the playlists on the left. Click RESTORE next to the playlist. Listen to thousands of podcasts on SpotifyThe power that is in Spotify is investing in podcasts in a great way, making it one of the best ways to listen to the new digital medium. In fact, it is the first genre listed on Spotify, in front of any kind of music. Read also: The best podcasts you can listen to in 2020 With huge purchases of shows such as The Joe Rogan Experience and entire networks like Gimlet and Parcast. Spotify quickly became a giant in the podcast industry. It is the only company with the means to do, distribute, monetize and play podcast, giving it a huge leg on the competition. After these acquisitions, the company has a star list of exclusive podcasts to listen to on the web or official app. Here is a short list of current and future exclusive Spotify podcasts: The experience of Joe Rogan Michelle Obama Podcast Renegades: Born in the United States Unnamed Kim Kardashian true-crime podcast (incoming) DC Comics narration podcast (incoming) Just like any other podcast app, you can find and subscribe to your favorite podcasts, so you never miss an episode. They are also ad-supported as the rest of Spotify's content, which means it is completely free and does not require a Spotify Premium subscription to listen. To further soften the pot, Spotify also added support for video podcasts. It is also super easybetween devices, with automatic synchronization audio. The app also automatically switches from video to audio when you turn off the screen to save the data. Privacy supporters may be alarmed by the amount of private data that Spotify and other companies have on you, but nowadays it is only the cost of using these convenient services. Free never comes without strings attached. However, there are some Spotify privacy tips to help you regain some control. First, you can opt for Spotify by collecting Facebook data for ads or opt for custom ads entirely. This will not prevent you from getting ads, but it will only give you a little more anonymity. Read also: That's why your Spotify account might have been hacked and how to ensure it If you want to know the extent of the information that Spotify has on you, you can also download it in the privacy settings. The whole process can take up to 30 days, and once finished, the data will be delivered to your email address. All Spotify's privacy settings are in the same place in your account settings. That's how to access it. How to change Spotify Privacy Settings Navigate to Spotify.com and log in. Click the Profile on the top right, then Account. Click Privacy Settings in the left panel. Play local music on the Spotify desktop app might have 35 million songs, but there are always dark artists who cannot be found on the platform. Using the desktop app, you can listen to any musicYou saved on your computer. First, you need to download the program. Click the link below if it is not already installed. How to play local music on Spotify Open Spotify for your desktop and access. Click Settings. Toggle Show local files. Click Add a Source and select the music folders. Access them under your Library on the left. Use Spotify web from any computer Can't you install programs on a computer or school? This is not a reason to stop jams, thanks to the Spotify browser-based web app. It has everything you need to transmit your favorite music without downloading any software. Just browse Spotify web, and you can start listening without even accessing your account. If you sign in, you will have full access to your playlists and saved albums. Listen to Spotify on other devices A nice set of Bluetooth headphones is a great way to listen to Spotify, but you can listen to your favorite melodies on any number of smart speakers and smart TV. Integration goes beyond simple musical reproduction. With a Google Home device, Amazon Echo or Sonos, you can control playback with the voice. Just ask him to pause, raise the volume, give the name of the song he plays, or whatever else you want to do. Note that while Spotify can connect with most devices on a free account. Sonos devices require that Spotify Premium functions. If you are invested in a Sonos home audio system, Spotify Premium is worth more than the price. Hide your guilty pleasures with privateOne of the great things about Spotify is that you can follow people and see what they are listening to. Unfortunately, this also means that your friends can see your story, including that three-hour Backstreet Boys session last week. Spotify has two ways to hide your pleasures guilty by the discerning public. The first is private sessions. These remove all listening activities from your story until you stop listening for six hours or more. How to start a private session on Spotify Open Settings. Scroll down to Social. Toggle private session. If you want to build a playlist for a surprise party of a friend, private browsing does not hide the playlist and could ruin the surprise. In this case, what you want to use is a hidden playlist. How to hide the playlists in Spotify Navigate to the playlist to hide. Tap the three points. Tap Secret. Change audio quality to save data or improve listening If you are on a limited data plan, using Spotify on the move can be worrying. Similarly, if you have a decent connection, you might want to convey the higher quality than the standard 96 kbps. Both free and premium members have different options available to meet their needs. If you are a Spotify Premium member, you can go up to 320 kbps in desktop and mobile versions. For the web version, quality is fixed and depends on whether you are a free user (128 kbps) or a premium user (256 kbps). Read also: How much data does Spotify use? Probably less than you thinkto change audio quality in Spotify Open Settings. Scroll down to the quality of music and select an option from the drop-down menu. If you are worried about data overages, a data save option automatically changes low quality when on a mobile connection. How to activate the data saver in Spotify Open Settings. Toggle Data Saver. Get Spotify Premium The free version of Spotify is great to get wet feet, but if you really want to get the most out of the music streaming service, you need to pay to become a premium member. This not only removes ads from the stream and allows you to freely skip songs, but also unlocks different unique features on the platform. Spotify Premium costs \$9.99 per month, but also includes access to Hulu. There are also discounts for students, families and Playstation music users. If you are still on the fence, you can try Spotify Premium for free for 30 days. Just click the button below for more details. Download Spotify songs for offline game (Premium only) If you are in an area with a spotty connection or planning to take a long flight, streaming music is out of question. Fortunately, it is easy to download songs, albums, playlists, podcasts and more, provided you are a premium member. You can download up to 10,000 Spotify songs on each device with only one account. This is more than enough music for any user, the more you can exchange regularly on mobile or desktop applications. However, desktop application is limitedplaylist downloads – albums and podcasts are not available for offline play. It is worth noting that you cannot download single songs via the mobile spotify app or desktop version. you will have to add them first to a playlist, even if that playlist contains only one song. how to download songs, albums and spotify playlists navigated to the album or to the playlist to download. tap the button next to download. by default, downloading music with mobile data is disabled. follow these steps to be able to download the spotify songs while away from a wifi connection. how to download spotify songs using mobile data tap home, then settings. touch the quality of music. toggle download using mobile phone. listen with friends near or far (only premium) while the world gets used to a new social detaching norm, many people might miss the days when you could only dare with friends and listen to music. spotify covered you with group sessions. the program is still in beta, but allows two or five premium spotify users to simultaneously listen to the same playlist, with shared playback controls. This means that your audio will always be synchronized, so you can get that party listening atmosphere if your friends are around the corner or a few miles away. Group sessions is also a great way to listen and watch podcasts with your friends, if this is yours. open a video or text chat and enjoy the viewing/enrollment party! connect spotify with other applications (only premium)is a great way to listen to music, and now you can bring your favorite songs and playlists to some other applications. You will need Spotify Premium, but by connecting it to Google Maps, for example, you can control your music without interrupting your directions. Another great integration is Uber. If the driver allows, you can select the music you want to listen in the car directly from the app. You can also skip the songs while you're in the car. Tinder also has Spotify integration. In the Show Music Interests section of the app, you can connect your account. You can then check which artists you and your game have in common and get some priceless conversation points for your first date. This is all for our Spotify Premium list and free tips!
